

Message From President Director

The development of construction and infrastructure sectors in Indonesia is growing rapidly supporting the economic growth. The realization of the projects in the sectors related to transportation, energy, housing and public services becomes pivotal as one of Indonesian government programs.

We, PT Krakatau Wajatama, as one of national companies in the steel industry for construction and infrastructure and also subsidiary of PT Krakatau Steel are responsible to participate in the development of the Republic of Indonesia.

Referring to our best experience in serving high quality product and supported by our mission as a steel producer and national infrastructure solution, we are ready to cooperate in order to realize the development in infrastructure and construction in Indonesia and regional area.

It is our great honor for us to participate with our partners in infrastructure and construction in Indonesia and other regions.

The success of our partners is our success.
